I am a Software Engineer (Web Development). I have a degree in Industrial Design. I am motivated and spontaneous and I am continually experimenting with new technologies and techniques. I prefer to work in a smaller team, and see the direct impact I have on a project.

Professional Experience

Software Engineer
100Devs （2022 - present）

- Collaborated with a team of developers to build modern and responsive web applications using best practices.

- Built semantically structured full-stack web applications.

- Applied agile methodologies like SCRUM for project management.

Web Designer
Freelance （2020 - 2022）

- Utilized contemporary design to create concise web sites for specific client needs.

- Provided the client with several mock-ups to choose from and worked alongside developers to come to a final design concept.

Deputy Manager - Operations
VFS Global （2013 - 2022）

- Manage all day to day activities (administrative and functional).

- Conduct regular Audits for all processes & implement all new process rollout or changes.

Graphics Designer
Feyse Studio （2012 - 2013）

- Developed numerous marketing programs (logos, brochures, newsletters, infographics, presentations, and advertisements) and guaranteed that they exceeded the expectations of our clients.

HTML/CSS
JavaScript
React JS
Node JS

Recent Projects

Hip Coffee Co (Full stack Web App) – Cashier can take coffee orders from customers with their names. Baristas can login to the app and see orders that have been made, mark them as complete. Orders that have been completed will note which barista completed the order.

Happy Notes (Full stack Web App) – Users can login to their profile and find their list of notes. They can add new notes through an input, which they can then edit or delete all notes in their profile.
